

# EASYFLOW F

**EasyFlow F** is a lightweight FIBRE FREE compound composed of a specific castable with special selected additives.

**EasyFlow F** optimises life time, insulation, thermal and non-wetting properties for the non-ferrous industry.

## Properties

- Excellent non wetting characteristics
- Non wetting to molten aluminium
- Max. temperature 1200°C
- Exceptional thermo-shock resistance
- Low shrinkage
- Very smooth surface
- Retaining its form
- Low density refractory
- Non combustible

## Good for environment

- No solvents
- No toxic vapours
- No inflammable vapours
- Cradle to cradle
- Fibre free

## Chemical characteristics

Al <sub>2</sub> O <sub>3</sub>	52 – 60 %
SiO <sub>2</sub>	30 – 40 %
Fe <sub>2</sub> O <sub>3</sub>	< 0,3%
Others	approx. 10%

## Applications

- Launderers
- Dams
- Spouts
